## A Wedding in Mono

I had a wonderful drive to and from Orangeville/Mono over the last several days! An old friend from high school asked me to his wedding and off I went! The wedding was at the Bride's parents farm complete with horses for a beautiful outdoor wedding. The super moon was out, the food and company were wonderful. It is nice to reconnect with old friends and laugh. Here are only a few that I took since I decided to leave the camera in the case for the most part. The nature shots were from the Mono Cliffs Provincial Park when I did a nice hike the morning of the wedding, B&W from the wedding, and the beautiful little Payton with her loving dad. We also went to a fantastic restaurant where I ate several courses and repeatedly declined to repeat any of our high school days. After Tosca and the wedding, tomorrow will be tough to focus on work!
