Inside Job? The real truth about the Death Star

Okay, my bad for being busy and not posting for a day or two!

So today after yoga I was mentioning to my friend that I was staying away from the news and my iPad since i didn’t want to spoil my watching of George St.Pierre’s fight against Nate Diaz in Montreal last night. I was really excited to get home and watch the recorded fight!

Just then, some dude, from across the room, decides to blurt out the winner of the main card. Spoiler Alert. Some people are really foolish.

But this has put me in a good mood: was the destruction of the Death Star an inside job? This video is quite convincing and the evidence is damning.
