

Masterchef Australia: The Professionals

One of my favorite cooking shows is Masterchef Australia: The Professionals. I was hooked on the last season of Masterchef Australia, much better than many of its international competitors.

I avoided mentioning it lest that guy send me an email spoiling yet another cliff hanger.

A great season! Chef Marco White is the best!

This link is to the recipes from the entire season. Some really nice dishes [here](#). I should eat more lamb.

No spoilers here but there are at the MC website so be warned!
