Naropa Online: Beat and Beyond

Naropa University presents its complete audio collection online in a searchable format. There is a wealth of Beat Poetry for those so inclined. The collection of audio recordings also include, among other things, lectures on Beat by luminaries such as Ginsburg, lectures on jazz and experimental writing from the era.

As a young man I read *On the Road* and this travelogue was one inspiration for my wanderlust.

Great stuff at the Internet Archives.
