

Never heard of the patch?

In the “I didn’t think people could be any stupider” file goes [this](#) article on some dude who put a cage over his head to stop smoking.... except it probably doesn’t help his willpower when he takes it off to eat.

I would like to break into this guys house and replace his head cage with one that weighs several hundred pounds.

Im thinking that this guy is just doing it to avoid kissing his wife.
