## **Some funny April Fools jokes**

There were some clear winners of yesterday April Fools festivites. My favorites: Lulu Leather <a href="here">here</a>, and Chris Hadfield's UFO hoax <a href="here">here</a>.

Very funny stuff! Also notable was the replacement of the .ca domain with .eh and Scope's bacon flavoured mouthwash. Funny stuff here!

I was surprised that bacon mouthwash didn't already exist!  $\square$
