

Tonight's movie: some classic 1970s martial arts!

I can't wait!

I saw *The Man From Hong Kong* on a crappy Beta (don't ask) tape when I was twelve or thirteen! Yu Wang and George Lazenby in a international drug dealing, hang-gliding, kung-fu on top of Ayers Rock, over the top sound effects, Australia-Hong Kong butt kicking old time kung fu film! More [here](#)! If I have time I may also watch *The 36th Chamber of Shaolin*, the 1978 master piece of Chinese kung fu and re-live my youth ☐☐
