

Yes. That's what I was doing, studying art!

The Metropolitan Museum of Art ([MoMA](#)) is presenting an exhibit on old school video games such as Pac Man, Tetris, and Myst!

From the MoMA website: Are video games art? They sure are, but they are also design, and a design approach is what we chose for this new foray into this universe. The games are selected as outstanding examples of interaction design—a field that MoMA has already explored and collected extensively, and one of the most important and oft-discussed expressions of contemporary design creativity.
